

FIG. 1 PRIOR ART

A cross-sectional view of a multi-layered structure 101. The structure consists of several horizontal layers. At the top is a thin layer 19. Below it is a thicker layer 12, which is part of a group of layers 12, 22, and 21. Below layer 12 is a thin layer 22, followed by another thin layer 21. The main body of the structure is a thick layer 18. Below layer 18 is a thin layer 21. Below that is a thin layer 27. Below layer 27 is a thin layer 11, which is part of a group of layers 11 and 24. At the bottom is a thin layer 24. On the left side, there is a hatched rectangular block 14. To its right, there is a hatched rectangular block 13. To the right of block 13, there is a hatched rectangular block 17. A dashed line 15 is located within the layer 11. A diagonal line 101 points from the top right towards the bottom left, passing through the layers 12, 22, 21, 18, 21, 27, and 11.
